Exclusive Agent for Qatar

With **EVERLITE** you can be even more efficient in everything you do.

Description

EVERLITE is an occupational shoe made entirely of polymeric materials and with the following components:

- Antistatic insert;
- Removable insole;
- Ventilation holes — both on clog and insole.

Users

EVERLITE is ideal for uses where prolonged standing or walking may tend to induce foot discomfort or lower body fatigue, especially to be used in:

Specifications

- Super Light**
Feelite™ technology produces remarkably light, resistant and comfortable footwear.
- Removable Insole**
It's detachable to allow a deeper cleaning.
- Shock Absorption**
The special design helps to reduce the occurrence of micro-lesions in tendons, bones and joints, and the feeling of tired legs.
- Antistatic**
Promotes the dissipation of accumulated static electricity.
- Upper Liquid Protection**
Avoids the entrance of liquids inside the shoe.
- Closed Heel**
Additional support for the moments that require extra agility.
- Breathable***
Regulates the temperature and humidity of the foot.
- Washable**
The footwear can be machine washed up to 50 °C.
- Antislip**
The sole is designed to reduce the risk of slipping.
- Extra Protection****
Absence of ventilation holes avoiding the entrance of speck to the interior of the footwear.
- Unisex**
Style designed to be worn by men and women.

Materials and Technologies

- EVERLITE** is made with **Feelite™** technology. Its material is super lightweight and is non-toxic.

Care and Cleaning

Wash: Machine washable up to a maximum temperature of 50 °C. Can also be cold sterilization with chlorine, sodium hypochlorite or hydrogen peroxide. The removable insole must be washed inside the clog.

Dry: Wipe with a cloth or dry at room temperature.

Attention

EVERLITE resists several washings at 50 °C in washing machine. It is not recommended the use of bleaching agents during washing machine cycles at 50 °C.

To keep your shoes new and beautiful for much longer, it is essential to follow some recommendations: Avoid getting your shoes wet, but in case this occurs, never place them in the sun. Let them dry in the shade and also away from any other source of heat, because heat damages the materials, the colour and the texture. A soft cloth is the main ally of this type of shoe and its cleaning should be done weekly or whenever necessary.
